

memeo Quick Start Guide

To use your free copy of Memeo:

PC USERS

1. Insert the DriveStation to your computer USB port.
2. Execute BUFFALO DriveNavigator Launcher referring to User Manual in this unit.
3. Click "Begin Installation" - "Additional Software Installation".
4. Select "Memeo AutoBackup" then click "Install" button.
5. After the Memeo AutoBackup software is installed, click Finish.

Mac USERS

1. Insert the DriveStation to your computer USB port.
2. Navigate to the "Mac" directory in the USB disk and double-click on lifeagent.dmg.
3. After the Memeo LifeAgent software is installed, click Finish.

When installation is complete, you will see the registration screen. Enter the serial number from the sticker provided with the unit. Internet connection is required at that time.

NOTE: The serial number contains the numbers "One" and "Zero", but not the letters "O" or "I".
